

ALPHABET ZOO™

A NOTE TO PARENTS

Any child 3 to 8 years old will enjoy this game.

ALPHABET ZOO contains an alphabet display and two exciting maze games that are fun and educational. Colorful pictures and delightful music accompany all parts of the program.

ABC TIME is a computer alphabet book that helps kids become familiar with the alphabet. The program moves through the alphabet displaying the letters in order from A to Z. Large colorful capital and lower case letters appear on the screen while a full size picture is drawn in slow motion. Every time kids view the program, it will

show a different assortment of pictures.

In THE LETTER GAME, kids race through the maze to capture the first letter of the picture shown in the middle of the screen.

THE SPELLING ZOO challenges young players to pick up the letters in the correct order to spell the word pictured on the screen.

ALPHABET ZOO helps children strengthen their letter recognition skills as they associate letters of the alphabet with the sounds that they represent. The games also help sharpen a child's spelling skills. Kids will have fun at every turn of the maze.

1 ABC TIME

ABC TIME shows each letter of the alphabet and draws a picture to go with it. There are three ways to go on to the next letter:

1. Press the letter on the keyboard that matches the letter on the screen. For example, if the screen is showing a CANOE, press the **C**.
2. **Press the space bar.**
3. Let the computer finish drawing the picture. After a little while, it will automatically go on to the next letter.

2

THE LETTER GAME

The game begins by drawing a maze on the screen, with a picture in the center. Use your character to search for the first letter of the picture on the screen. For example, if there is a picture of a MONKEY, then go out and get all the M's that you can before time runs out. When you first grab the right letter, the word will be spelled out on the top of the screen.

Move your character through the maze until you find the right letter. Be quick - after a few seconds, the letters start to move around the maze. Catch it by putting your character over the letter. Then grab it by pressing the **[A]** key (player #1) or the **[J]** key (player #2).

To jump around the maze, land your character on one of the hyperspace circles in the corners and press the **[A]** key or the **[J]** key. This will hyperspace you to another part of the maze.

Don't stop until you've caught all of the right letters or until you run out of time. When you're done with each round, **press** the **[A]** key to go on.

3

THE SPELLING ZOO

In this game, your character has to maneuver around the maze and pick up all the letters to spell the word in the middle of the maze. For example, if there is a picture of a COW, you have to capture a C then an O, then a W in the correct order.

To capture a letter, just move your character until you land on the right one. Then grab it by pressing the **[A]** key (player #1) or the **[J]** key (player #2).

To jump around the maze, land on a colored hyperspace circle and press the **[A]** or **[J]** key. This will fly you to another section of the maze.

Keep picking up letters until you spell out the word or run out of time. Then, **press** the **[A]** key.
