

# ROSEN'S BRIGADE™

for Atari® 400/800/1200XL Computer (16K)

by Ron Rosen

## GAME PLAY

As the fearless pilot of a fighter jet, you attempt to rescue your fellow pilots as they bail out of their aircraft over enemy lines. You begin the game with one jet ready for action, and two jets in reserve. You fight off battleships, tanks, planes, and helicopters.

To rescue the parachutists and score points, just touch them with your jet as they fall from the sky. Shoot and destroy all enemy craft and score more points. If you destroy all the enemy forces in one level you advance to a new, more difficult level. On your rescue mission, avoid crashing into the water, ground, enemy planes, helicopters, ships, and explosions or you will loose your jet.

## TO START

Connect a joystick to controller jack #1 on your computer.

**Diskette** — Turn off your computer and remove all cartridges. Turn on the power to your video monitor and disk drive #1. Wait for the red "drive busy" light to turn off. Insert the diskette and close the drive door. Now turn on the computer.

**Cassette** — Turn off your computer and remove all cartridges. Insert the cassette into your tape player and press PLAY. (Note: rewind tape if previously played.) Hold down the START key (on computer) and turn on your computer. When you hear the "buzzer" press RETURN.

# PROGRAMMER'S OPPORTUNITY

Are you an experienced, assembly-language programmer? Have you written an original program that you would like GENTRY to market? Do you have a terrific concept that would make a great computer product? If you answered "yes" to any of these questions, then we'd like to talk with you!

GENTRY is actively seeking experienced programmers, state-of-the-art programs, and program concepts for the Apple, Atari, Commodore 64, TI 99/4A, Tandy Color and other personal computers.

If you are a PROGRAMMER:

GENTRY continually considers qualified applicants to add to our in-house programming staff. Qualified applicants have extensive machine-language experience on the computers listed above and are able to work individually or on teams. Responsibilities include developing arcade-style, adventure, and educational games and home management software for marketing through GENTRY's extensive domestic and international distribution channels.

If you have a PROGRAM or CONCEPT:

GENTRY continually evaluates programs and concepts which authors submit for our review. Evaluation criteria include: originality of concept, utilization of graphics and sound, playability, user-friendliness and over-all appeal. We review submissions as quickly as possible and take great care to ensure complete confidentiality and protection for your product or concept.

GENTRY, a leading marketer of personal computer software, can offer you opportunities that no other software company can. So — if you're ready to join one of the top names in personal computer software, contact our New Product Development Manager at:

# SEND US YOUR IDEAS!

There's only one opinion that really matters in the future of computers and how we use them . . . *Yours!*

Making computers accessible to everyone was once only a vague hope of the future. Now it has become a reality which is even now dramatically changing our world, making it a better and more enjoyable environment for everyone. That's why GENTRY needs your help in choosing the products of tomorrow.

Helping to shape the future can be as simple as filling out the few short questions which you'll be sending in with your warranty card. (Just drop it in the mail . . . we'll pay the postage.) Your ideas will help us in selecting the products that will become the most useful to you.

In return for your help, we'll be able to keep you up to date on what we're doing now, and what we're planning for the future. We'll even let you in on sneak previews of our new releases.

You have the ideas which can help shape the future, and GENTRY is ready to listen!
