## THE STORY

The story starts in 17 million BC (on a Tuesday) with our hero making a visit to his bank 'Savings and Bones' to deposit a big bag of bones. No sooner had Bignose approached the stoney lobby of the bank when he was jumped on by *Leroy the Lizardman*, knocked out and had all his bones stolen. When Bignose woke up and realised his bones had been stolen he really **did** freak out! After about a half hour of jumping up and down and causing mini-earthquakes he was hit by a bright idea and ran off to get busy in his garage. Two hours later, out he whizzes on his newly invented wheel and begins the quest to recover his bone savings...

Your task is to help Bignose retrieve his bones and teach Leroy a lesson he won't forget. There are five sections of play with four levels in each section. At the end of each section Bignose will meet Leroy, he'll usually have a trusty monster

ready and will attempt to snuff out Bignose.

Bignose starts the game with three lives and his prehistoric club. Most of

the creatures will kill Bignose on contact -so, don't try to make friends with them, kill them with the club! Bignose also starts the game with one continue.

## BIGNOSE'S CLUB

Whilst tearing along the landscape, don't miss the 'three rock' icon. When Bignose picks this up he can use his club to launch rocks at his enemies. Each rock Bignose picks up adds to the number of rocks he can launch per hit (maximum 3). Each rock Bignose picks up when he's already firing three stones will make his stones fly *faster* -after that he'll get *power-stones* which travel straight through the enemy and kill **anything** in their path. If Bignose is hit whilst carrying rocks, he loses the rocks. If Bignose isn't carrying rocks when he's hit, he's history.

## BONES & MUSHROOMS

Pick up bones you find along the way. Collect 25 or more bones before the end of a level and Bignose will get an **extra life**. The maximum number of lives he can have is **nine**. Look out for the mushrooms, some of these will reveal a surprise if Bignose jumps on them. *Extra lives, extra bones, invincibility, bonuses and higher jumps* can be found. Not all the surprises are nice ones though, some hide creatures or set off lightning storms and some will even reverse

# BIG NOSE Freaks Out

the controls!

- Not all mushrooms are visible

## THE GAME SCREEN

In the top left corner is the number of bones Bignose has collected so far. Below this Bignose's lives are shown. At the bottom of the screen is

the score. Don't forget to look at the rest of the screen because this is where all the action happens!

## TIME LIMIT

There is a time limit of approximately 4 to 7 minutes to do each level in. The timer is not

actually shown until you have only 30 seconds left (when it replaces the score at the bottom of the screen). When the timer runs out Bignose *loses* a life.

## BONUS STAGES

In the bonus stages Bignose has to jump from mushroom to mushroom across the screen to the end. If he succeeds you win a *continue*. Each continue allows you to restart Bignose at the level he reached when he was killed. Bignose **won't** lose a life if he doesn't complete the bonus game.

## HIDDEN LEVELS

Throughout Bignose Freaks Out are a number of *hidden levels*. Some are found by bouncing on mushrooms, others just by falling in the right place. When you find a hidden level or secret memorise where it was.

## THE BIG BOSS MONSTERS

After you have completed an area of Bignose Freaks Out (that's four levels), you move on to fight the *big boss monsters*. These guys are **mad maniacs** and having Leroy around doesn't help. Each time Bignose confronts a boss, an energy bar will appear above the score at the bottom of the screen. Some of the big baddies include: **Spike, Sidney, Ripper** and several of Leroy's

stylish inventions which include a giant catapult and a hot air balloon -so watch out Bignose!

## TWO PLAYER TAG MODE

In this game you start with 4 lives. When you lose a life **player two** takes over Bignose until he loses another life. This continues until Bignose finally dies. Extra lives prolong the game as usual so keep getting em'!

## TWO PLAYER CHALLENGE MODE

In this mode you can challenge a friend. You take turns to collect as many bones as possible in 60

seconds. You play 5 levels, one from each area and the winner is the one who has collected the most bones at the end. You take turns to go first in each level. Above Bignose is a number flashing to show whose turn it is. At the end of each area a results table shows who is in the lead.

## HINTS & TIPS

- Look out for hidden doors
- There are 40 hidden levels
- Pick up as many stones as you can to increase your firepower
- Try jumping everywhere, there are dozens of mushrooms to find - and hidden levels.
- Look out for level warps too!
