Infiltrator by Chris Gray

You are Captain Johnny "Jimbo Baby" McGibbits-*The Infiltrator*. Your mission is to fly into enemy territory and carry out operations which will completely disable the Mad Leader's plans for war. You will be required to fly your chopper through enemy airspace, reach important target areas and carry out specific missions to help destroy the military force.

Features

- The ultimate, realistic helicopter flight simulation
- Exciting animated land-based graphic adventures

Available for the Apple II series, Atari 800 XE/XL, Commodore 64/128 and IBM

Infiltrator II by Chris Gray

You are still the one and only Captain Johnny "Jimbo Baby" McGibbits, *The Infiltrator*. But, intelligence reports indicate that the Mad Leader has risen from the smoldering ashes in which you once left him

You'll fly your Gizmo™ DHX-1 Attack Chopper behind enemy lines in search of the Mad Leader's new headquarters. Once there, you'll begin an all-new series of ground missions to thwart the Mad Leader's revitalized troops. But be careful! This time, the Mad Leader knows what he's up against!

Available for the Apple II series, Commodore 64/128 and IBM

Balance of Power™ by Chris Crawford

Step beyond the theories and concepts, and experience first-hand the pressures and challenges of superpower leadership in a nuclear age. Test your savvy with what the *New York Times* called "one of the most sophisticated strategic simulations in America other than Pentagon war games."

This simulation lets you assume the office of President of the U.S. or General Secretary of the U.S.S.R. As you manage overt and covert actions, insurrection and political deceptions, divisions of troops and diplomatic efforts, your nation's prestige will rise or fall. You have eight years to win.

Available for the Amiga, Apple II series, Atari ST. IBM and Macintosh

Trust and Betrayal: The Legacy of Siboot by Chris Crawford

Chris Crawford, creator of the awardwinning Balance of Power, brings a radical new approach to computer games. For the first time ever, interact with characters so fully-rounded they display their own drives, ambitions, and emotions in a round-robin of political maneuvering.

Also for the first time, interact with a game that requires neither strategy nor reflexes, but instead calls on your intuition, ethics, and social abilities. And, for the first time, interact with a program that uses a revolutionary icon-based language to achieve full, unambiguous expression without the limitations of typical parsers.

Available for the Macintosh

Bop'N Wrestle by Melbourne House

You've seen 'em flying into the aisles. Now you get to climb into the ring with 'em and join the mayhem of professional wrestling at its best. Bop'N Wrestle puts you in the ring with 10 of the meanest, baddest, biggest, ugliest pro wrestlers you've ever seen fly off a turnbuckle!

This fast-paced action game for one or two players takes place in a threedimensional arena so realistic you'll swear you can hear the bodies hit the canvas.

Available for Apple II series, Atari 800 XE/XL, Commodore 64/128, and IBM

Bop'N Rumble

by Beam Software

Grannies under attack! Yes, helpless little old ladies can't walk the streets in safety. With hordes of yo-yos like new-wave gangsters, motorcycle madmen, break dancers, gorillas and other creeps that threaten the streets, we need a hero. But where, oh where can such a hero be found?

You got it—the world champion, macho man of Bop'N Wrestle...Gorgeous Greg. Maneuver Greg in Bop'N Rumble as he faces down an array of turkeys so big and bad they make pro-wrestlers look like Sunday school teachers. Fight your way through all levels to save the grannies and become the hero of the city!

Available for the Commodore 64/128 and IBM (coming soon)

Superstar Ice Hockey

by Ed Ringler/DesignStar Consultants

Superstar Ice Hockey is the first complete hockey simulation!

It's actually three games in one. You can play, coach, and manage. As a player, take the ice as center or goalie. Fire slap shots, hip-check opponents, make slick passes, block shots. As a coach, set up and rotate your players' lines. As a general manager, trade and draft players. Build a weak franchise into a contender. You choose the level of complexity!

Available for the Amiga (coming soon), Apple II series, Atari ST (coming soon), Commodore 64/128 and IBM

Superstar Soccer by Ed Ringler/DesignStar Consultants

Superstar Soccer is the most complete, realistic, outdoor soccer simulation available! You have total control of your own soccer team as you play, coach, and act as the general manager.

Take the field as a player and run, shoot, pass, and defend. You'll practically feel the contact. As a coach, choose your lineup, make substitutions, and call onfield strategies. How well your players execute depends on how good a team you've put together as the general manager. You'll need to make trades and recruit new players as your existing players age with each new season.

Available for the Commodore 64/128 and IBM

Indoor Sports

by Ed Ringler/DesignStar Consultants

Tired of those boring outdoor games? Tired of getting dirty and sweaty? Then try Indoor Sports! A little air hockey? No sweat. Like to bowl? Then roll on. Darts anyone? Double your pleasure. And Ping Pong? Simply smashing. Play against other players or against the computer. But play hard because these fast-paced games are every bit as challenging as the real thing.

Features

- Four action-packed games in one package: air hockey, bowling, darts and ping pong
- · Realistic, 3-D graphics and animation

Available for the Amiga, Apple II series, Commodore 64/128 and IBM

Shadowgate by ICOM Simulations

The third in Mindscape's hit graphic adventures following the award-winning Deja Vu and Uninvited.

As the last of the Line of Kings, only you possess the power to destroy the cunningly evil Warlock Lord. But you must find him before his horde of nasty allies finds you. A huge castle overflowing with secret passageways, collapsing floors, and armed creatures with good aim awaits your inspection. Good luck. Like Deja Vu and Uninvited, this one's a killer!

Available for the Apple II series (coming soon), Amiga, Atari ST (coming soon), Commodore 64/128 (coming soon), Macintosh and IBM (coming soon)

Deja Vu: A Nightmare Comes True by ICOM Simulations

Deja Vu is an award-winning graphic adventure in which everything seems vaguely familiar, yet you remember nothing.

Your head is pounding with a bump that's bigger than a cue ball. Your clothes are stained with blood that's frankly, not your type. As you stumble from room to room, nothing is familiar.

And because everything you encounter in this bizarre maze reacts to your every move, there's only one person who can control the outcome of this mystery. Only you can clear yourself of the murder.

Available for the Apple II series (coming soon), Amiga, Atari ST, Commodore 64/128, Macintosh and IBM (coming soon)

Uninvitedby ICOM Simulations

Omni's 1986 Best Mac Game of the Year.

Experience a journey beyond fear. Uninvited takes you on a terrifying trip through a demon-filled mansion where only the fearless can survive.

By the creators of **Deja Vu**, **Uninvited** takes state-of-the-art technology a step further in an exciting interactive graphic adventure. A click of the mouse lets you explore your environment, while digitized sound and animation bring a forbidding world to life. Don't wait for an invitation.

Available for the Apple II series (coming soon), Amiga, Atari ST (coming soon), Commodore 64/128 (coming soon), Macintosh and IBM (coming soon)

Q-Ball by English Software

It's not pool, it's not nine-ball, it's not billiards...it's Q-Ball, a pool game inside a cube. Imagine being able to line up shots in three dimensions. Imagine no gravity, eight pockets, and the ability to rotate the table in three dimensions in real time while you make your shot. Unimaginable? Q-Ball is absorbing, challenging, fun, totally addictive, and absolutely unique.

Features

- · A unique 3-D rotating game space
- · 262, 144 different viewing angles
- · Adjustable spin, friction, and power of shot
- Stunning graphics
- · 1- or 2-player games

Available for the Amiga and Atari ST

Fist: The Legend Continues

by Melbourne House

Enter the world of Fist. A world so dangerous that the temple training grounds alone are tougher than anything you've faced before. You'll encounter a sprawling, hostile world of dark swamps and forests, evil mountains and caverns, and vicious enemies.

Use all of your skills to defeat Ninja assassins, mighty Shoguns, warriors, mercenary soldiers, panthers and peasant villagers. Once you achieve true mastery, the final challenge beckons in the volcanic fortress of the evil warlord.

Available for the Commodore 64/128 and IBM (coming soon)

TrailBlazer

by Gremlin Graphics Software

Enter the bizarre dimension of Trail-Blazer. A world of sentient soccer ball races through hyperspace networks of everchanging color grids. This unique one or two player split-screen race game is unlike anything you've ever seen before. Are you smart enough, fast enough, and strange enough to have what it takes to be a real TrailBlazer?

Features

- · High speed action
- Graphics and sound that push your computer to the limit
- · Split screen point of view play
- · 20 fixed courses and a random option

Available for the Atari 800 XE/XL, Atari ST and Commodore 64/128

Parallax

by Ocean Software

Another routine planet to explore until you learn an evil computer intelligence on the planet plots an imminent attack on Earth. Your task: Fight off aliens and mad scientists as you try to break into and destroy the central computer. (Not the stuff they taught you at astronaut school!)

You'll need quick reflexes, quick wits, and quick thinking to come out of this one alive. Comes with 3-D graphics so you can fly above and below the varied surface features.

Available for the Commodore 64/128

Uchi Mata

by Martech

Based on Judo, Uchi Mata is a remarkably accurate and detailed martial arts simulation. Become practiced at all of the major throws of Judo. Compete against another player or against the computer. You'll even learn a few illegal moves.

Designed in conjunction with champion Judo expert Brian Jacks, a 7th Dan black belt, an 11-time winner of the British Championship, a 5-time winner of the Open Championship, and a 4-time winner of the European Championship, Uchi Mata's authenticity is unparalleled among martial arts simulations.

Available for the Commodore 64/128

MasterType's™ Filer

MasterType's Filer is the home file and list manager that makes getting organized fun and easy!

MasterType's Filer is a program for children and adults that eliminates filing in old shoeboxes. Pre-set files make it easy to catalog valuable information on hobbies, record collections, paper routes or sports statistics. Also, you can computerize household records including names, addresses, birth dates, credit cards, home inventory, health and insurance records. It's so powerful that it will sort lists alphabetically, and print them out as labels or tables.

Available for the Apple II series, Atari 800 XE/XL, Commodore 64/128 and IBM

The Original Boston Computer Diet™

Developed by a team of doctors, psychologists, and nutritionists, the Original Boston Computer Diet puts a personal weight loss counselor in your computer! Discover a permanent pathway to physical fitness, good health, and nutrition with this easy-to-use program which acts as an individualized personal fitness and weight loss counselor.

The Original Boston Computer Diet regularly analyzes your nutritional requirements, monitors your eating and exercise habits, and suggests meal plans.

Available for the Apple II series, Commodore 64/128 and IBM

Your Personal Net Worth™

Your Personal Net Worth manages your family's most important money matters: income, expenses, investments, personal property and budgets...and shows you how to borrow, budget or invest effectively. No other program does it more quickly, more easily, more directly. It's all you'll ever need in a home financial package.

Your Personal Net Worth makes organizing and handling every detail of your home finances simple and time-saving. With this program, you can set up a budget and then compare your actual spending to it.

Available for the Apple II series, Atari 800 XE/XL, Commodore 64/128 and IBM

ColorMe The Computer Coloring Kit

Unleash creativity with ColorMe: The Computer Coloring Kit, a flexible drawing and coloring program designed especially for children. Children can create their own pictures with the easy-to-use drawing and coloring tools on the ColorMe program disk. Or they can compose pictures by cutting and pasting dozens of predrawn pictures from the library of Picture Disks. Then they can print out their creations, making autographed pictures, coloring books, cards, stickers, buttons, and more with the printing paper included in the package.

Features

- · Easy-to-use drawing and coloring tools
- Dozens of colorful pre-drawn characters on the library of Picture Disks
- · Ability to add text to drawings
- · Print capacity
- · Starter supply of colored printing paper

Available for the Apple II series, Commodore 64/128 and IBM

Build a Book™

Build a Book lets you create personalized storybooks. Your child becomes the central character in these charming stories. Improve your child's vocabulary and cognitive reading skills by providing this meaningful, personal reading experience.

The program itself is simple to use and everything you need to print and bind two storybooks is included in the package: two colorful illustrated page sets (32 pages each), two durable hard covers, binding materials, and a software disk with two stories. You can also reorder the original stories or order two new ones.

Single Book Refills

- The Holiday Dragon
- The Mystery of Scented Mountain
- The Greatest Circus Story Ever Told
- Adventures on the Riddle Planet

Also available in 2-pack Refill Kits

Available for the Apple II Series, Commodore 64/128 and IBM

Bank Street™ Storybook

by George Brackett and the Bank Street College of Education

Everyone loves making up stories and drawing pictures. With Bank Street Storybook, children can create dynamic, multipage stories with animation and pacing. Stories can be stored on disk and printed out. Joystick required.

Features

- Flexible placement of words and graphics anywhere on the screen
- Word-processing approach to editing words and graphics
- · Simple animation
- · Easy-to-follow on-screen directions

Available for the Apple II series, Commodore 64/128 and IBM

Success With Math™ Series

Arithmetic becomes as easy as 1-2-3 when your child sits down with this class-room-tested series of six self-paced math tutorials. Designed for use by primary and secondary school students, each program provides endless practice in basic skills, helping students do better in school. Emphasis is placed on problem solving with reinforcement of mathematical skills and concepts.

The Perfect Score with The Perfect College

Mindscape helps you learn better and faster, by putting this SAT program in the computer, not in the manual. The Perfect Score covers all areas of the test, and includes a timed practice exam, printout capability and a continuous on-screen clock. All this makes The Perfect Score more computerized than other SAT programs!

With The Perfect College, choosing your own best list of schools is easy. Just specify the college criteria that are important to you, such as location, cost, academic interests, and student/faculty ratio, and The Perfect College produces a list of the schools that match your needs. Information about more than 1600 accredited, 4-year U.S. colleges and universities is included.

Available for the Amiga (without The Perfect College), Apple II series, Commodore 64/128, IBM and Macintosh. The Perfect College can also be purchased separately.

Crossword Magic™ by L&S Computerware

Become a wizard with words: Create, play, and print crossword puzzles effort-lessly with Crossword Magic. Create puzzles to entertain and challenge your friends. Build puzzles to use as study aids, greeting cards, or invitations.

Features

- Easy-to-use format: Create crossword puzzles easily; simply select the puzzle words, then let the program do its magic as it creates the puzzle grid automatically.
- Print option that allows you to print puzzles, clues, word lists, and answer puzzles.

Available for the Apple II series, Atari 800 XE/XL, Commodore 64/128, IBM and Macintosh

Mastering the SAT

Two full-length sample tests on disks, two more in the workbook, and an entire disk of Skill Builders add up to a comprehensive preparatory program! Created in response to teacher demand, this four-disk program emphasizes the principles involved in each question and solution—as well as test-taking strategies.

All Verbal and Math areas of the Scholastic Aptitude Test are covered. A 152-page Workbook includes two additional full-length exams for further practice. This program was developed by the National Association of Secondary School Principals.

Available for the Apple II Series, Commodore 64/128 and IBM

Mastering the ACT

This six-disk program covers all areas of the ACT — English, Math, Social Studies, and Natural Sciences. It simulates actual testing conditions in both content and format. Full-length simulated pre- and post-tests provide self-scoring with detailed error analysis. Optional tutorial accompanies both simulated exams.

The program is the only ACT preparation course developed by a major national association of educators—the National Association of Secondary School Principals. Two more full-length exams are included in the 152-page workbook.

Available for the Apple II series, Commodore 64/128 and IBM

Mastering the GRE

Two complete simulated exams (one on the disk, one in the accompanying book) and other exercises offer many highly beneficial hours of practice in preparing for this important examination.

The four-disk program includes every aspect of the Graduate Record Examination. The program gauges user performance and assesses both strengths and weaknesses. All the questions and practice material are written at the same level of difficulty as the actual GRE.

GRAPHICWORKS™ 1.1

by MacroMind

"Graphics with the Works"

GraphicWorks 1.1 is the professional design software for the creation and manipulation of graphics and text. Created as a high powered art studio on a disk, Graphic-Works 1.1 allows you to place text and/or graphics anywhere on the screen/page and then move them about freely and independently. Light years ahead of the standard "paint" programs, GraphicWorks 1.1 lets you create anything from a simple flyer to storyboards to newsletters to professional ad proofs.

With its full list of paint features, drawing features, text editor, and special effects (skew, rotate, perspective, & distort), GraphicWorks 1.1 is the first program to offer a complete graphics solution to the graphics professional. GraphicWorks 1.1 also works in tandem with the other professional tools you have come to depend on, including your scanner and LaserWriter (and your ImageWriter). GraphicWorks 1.1 can now import full-page 300 dpi (and above) scanned graphics, which you can then touch up, move into a document, and print. Because of its sophistication, GraphicWorks 1.1 is the perfect add-on to PageMaker™ or Ready-Set-Go™. You may even find, however, that with **Graphic-Works 1.1**, you might not need to look any further for your desktop publishing solution.

GraphicWorks 1.1 offers:

- · A full-featured paint program
- TIFF compatibility to import and edit scanned images
- · A full-featured draw program
- · A full-featured text editor
- · Skew, rotate, distort, & perspective tools
- The ability to intermix text and graphics anywhere on the page
- · Multi-page documents
- ThinBits™ to work with an entire page & multiple level FatBits for detailed work
- Professional design tools such as a variable airbrush and overlay modes
- The ability to work in multiple resolutions, 300 dpi and beyond
- · Full LaserWriter and ImageWriter support
- Professional template disk to aid in the design of newsletters, storyboards, etc.
- · Color printing with the ImageWriter II
- · On-screen rulers for precision alignment
- A complementary graphics design tool for PageMaker, Ready-Set-Go, etc.

Available for the Macintosh
