LUNAR LEEPER

ATARI VERSION
BY
KEVIN HUNT

It's a mission of mercy! Save your men from LUNAR LEEPERs while trying to avoid the cute little critters. Naturally, they're trying to get you!

TO BEGIN PLAY

1. Remove any cartridges from the computer slots.
2. Turn on your disk drive.
3. Label side up, with your thumb on the label, insert the LUNAR LEEPER disk in the disk drive and close the door.
4. Turn on the computer and monitor. In a moment, LUNAR LEEPER will start with the banner (title) page.

HOW TO PLAY LUNAR LEEPER

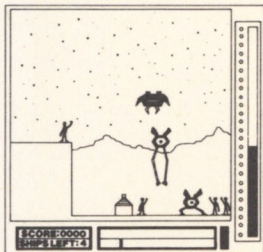

Press ◀START▶ to begin. You will be asked to select your choice of control. An arrow will point to your options: Keyboard or Joystick. Move the arrow with the ◀OPTION▶ KEY to your selection and then press ◀START▶.

KEYBOARD

You will be asked to select keys for up, down, move left, move right, fire left, and fire right. If your choices are the ones you want, press ◀Y▶ (yes), or ◀N▶ (no) so that you can change keys.

The game begins in Level One unless you choose a more difficult level. (See special commands below.) There are eight levels with two stages at each level. Each level is harder than the last one.

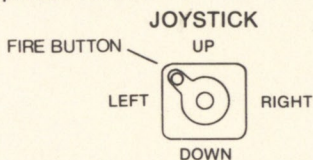

STAGE ONE

SCORING

Points Each

Saving Men	300
Shooting LEEPERs	20
Lunars Left (Bonus)	1000
Men Eaten (Penalty)	- 500

You are traveling right along your screen avoiding LEEPERs when, Aha!! You have spotted one of your men. Land on his head to pick him up, and transport him back to the safety of the cliff while watching out for LEEPERs at the same time.

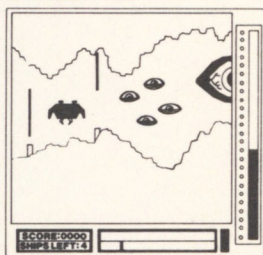

Continue rescuing men until all of them are gone or all the LEEPERs are killed. There are cliffs at both ends of the playing field, so use the one that is closest. When you have rescued all of your men or killed all of the LEEPERs, you will advance to stage two. The more LEEPERs you leave behind, the more points you will earn. Shoot as few as possible.

Your fuel will not last forever; when your tank is half-full, a refueling station will

appear at the base of the cliffs on both ends of the playing field. Refuel as often as necessary. If you run out of fuel, you will crash at the bottom of the screen. Refueling restores your supply of bullets too.

To make the game tough, there are no brakes. There is an inertia meter to help you. Allow time and space to avoid the LEEPER's jaws.

STAGE TWO

SCORING

Points Each

TRABANTS	20
Shooting Eyeball	2500

Now, you are traveling inside a cave. Your mission: Destroy the giant eyeball at the end of the tunnel.

You better be speedy because there are no refueling stations in caves. So don't waste time.

Oh, we almost forgot, watch out for Trabants and lazer turrets, the eyeball protectors. You will have to shoot your way through them to get to the eyeball. When the giant eyeball is destroyed, you will be in a more difficult Stage One.

SPECIAL COMMANDS

To Pause Play	◀ESC▶	To Change Controls	◀CTRL I▶
To Restart Game	◀CTRL R▶ or ◀START▶	To Change Difficulty	◀CTRL L▶
To Turn Sound Off/On	◀CTRL S▶	To start new game	◀ANY KEY▶

To set horizontal sensitivity when using the joystick. TYPE 1,2,or 3. 1 = most Sensitive; 3 = Least Sensitive.

THE OTHER SEVEN LEVELS

The better you get at saving men and killing Trabants, the tougher your mission. Each successful mission you fly will be followed by a tougher one--more LEEPERs, more Trabants, and more excitement!

In the upper challenge levels, Trabants will try to hit you in the first stage. These cannot be killed and must be avoided to survive. After the second level, there are more and faster Trabants. You'll have to be on your toes every minute. GOOD LUCK!!!

At the end of the game, high scores are recorded.
