

WORLD TOUR GOLF™

Getting Started

For your convenience, *World Tour Golf* is not copy protected so that you can easily make *one* backup copy for your own use, or install the program on your hard disk. Please show us that copy protection is unnecessary—*do not give copies of this product away*. Thank you. Use the following procedure to make a working backup of your *World Tour Golf* master disk :

1. Insert the *World Tour Golf* game disk in drive A:.
2. If you have two disk drives, insert a blank, formatted disk in drive B:. If you're using one disk drive, be sure you have a blank, formatted disk ready, then skip to next step.
3. Type the command, **COPY A:*. * B: (Enter)**.

This command sequence works on single drive systems; however, single drive users should note that when the computer prompts for a disk swap, it refers to the original disk as the "Drive A: disk" and the copy as the "Drive B: disk."

NOTE: You cannot log onto a different drive and load the game in the same command. For example, A: GOLF (Enter) will not work. You must use two separate commands: **A: (Enter)** then **GOLF (Enter)**.

Hard Disk Installation: Use the following procedure to install *World Tour Golf* on a hard disk.

1. Create a directory for *World Tour Golf* (e.g., **MKDIR \WTG**).
2. Change to that directory (e.g., **CD \WTG**).
3. Insert the *World Tour Golf* game disk in drive A:.
4. Type **A:INSTALL (Enter)** to run the hard disk installation program.
5. Follow the onscreen instructions for loading the game.

Starting World Tour Golf: Make sure the **NUMLOCK** key is off, or the keypad arrow keys won't function correctly. If you own a Tandy 1000 with 256K of RAM, you must boot it with DOS 2.11.

1. Boot your computer with an MS-DOS disk.
2. Remove the DOS disk and insert the *World Tour Golf* game disk in drive A:.
3. Type **GOLF** to start the game.

Note to original Tandy 1000 owners: You must have a memory expansion board with a DMA chip installed to play *World Tour Golf*. If you are uncertain about which board is installed on your computer, try to run the game. If the title screen doesn't appear, contact your Tandy dealer to purchase and install a DMA memory board, or return your copy of *World Tour Golf* to the place of purchase for a refund or exchange.

Graphics Display and Memory

World Tour Golf is mostly self-configuring, but some unusual graphics boards may require the use of one of the following commands:

SWITCH	GRAPHICS	DEFAULT HARDWARE	OTHER HARDWARE
GOLF /C	4 color	CGA	EGA, Tandy
GOLF /T4	4 color selectable	EGA (color), Tandy 1000 (256K)	---
GOLF /T	16 color	Tandy 1000 (384K)	---
GOLF /H	Hercules Monochrome	Mono monitor (no EGA)	---
GOLF /EM	EGA Monochrome	EGA with mono monitor	---

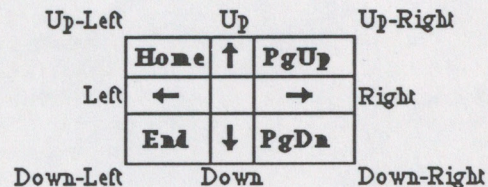

Note: *4 color selectable* is a four color mode in which you can adjust three of the the default colors (black, green, lt. blue, brown). Adjust green, lt. blue and brown by simultaneously pressing the Alt key and 1, 2, or 3 respectively.

A Tandy 1000 with 256K or less available does not have enough memory to run *World Tour Golf* in 16 colors. *World Tour Golf* automatically uses 4 color selectable mode on Tandy 1000s with limited memory.

For a system with a monochrome board and a color board, activate the proper board with the DOS **MODE** command. See your DOS user's manual. For a Compaq portable with an external color monitor, type Ctrl/Alt/< keys simultaneously at the DOS prompt to activate the color display.

Game Play Keyboard Commands

Play *World Tour Golf* with either a joystick or the keyboard. If you use the keyboard, the diagram to the right shows which keys control a particular direction. These keys are all on the numeric keypad on some computers, but are located in different areas on the keyboard on other computers.

NOTE: Tandy computers have a HOLD key immediately above the Return key that is very easy to press accidentally. The HOLD key pauses the system and makes it appear as if the currently running software is frozen. Press HOLD a second time to resume normal operation.

The **Enter**, **Ins**, and **+** (Plus) keys are equivalent to joystick Button 1. The **Spacebar** is equivalent to joystick Button 2. Press **Esc** to return to the previous screen. Press **Shift-PrtSc** (press Shift and PrtSc keys simultaneously) to print a copy of your scorecard when the scorecard is on the screen. **Note:** *World Tour Golf* works with many printers and interface cards without difficulty. However, if you experience strange printing results, you may need to adjust the switch settings on your printer and/or interface card. Consult your printer and interface card owner's manual for the switch adjustments that will correct the problem. Other keys you can use during game play are described below:

Key	Function
↑	Moves the highlight bar up and down in menus, and selects a specific club before each stroke.
↔	Moves between columns in menus, and adjusts your aim while playing a hole.
Ø or T	Allows you to tap the ball 4 feet. (Only while putting.)
1	Allows you to hit or putt at 20% relative strength.
2	Allows you to hit or putt at 40% relative strength.
3	Allows you to hit or putt at 60% relative strength.
4	Allows you to hit or putt at 80% relative strength.
5	Allows you to hit or putt at 100% relative strength.
G	Sinks a short putt.
S	Shows your scorecard if a human player is "in play." Any key exits.
Ctrl-K	Joystick control is bypassed.
Ctrl-J	Resets joystick for use. Center joystick before using this command.
Ctrl-V	Toggles sound on/off.

NOTE TO AT USERS: *World Tour Golf* does not support the AT joystick.

Construction Set Keyboard Commands

The *World Tour Golf* construction set contains its own set of keyboard commands that help speed your golf course design. Shortcuts while in "Draw Terrain" include:

Function	Key	Function
F2	F	Fills an enclosed area with the selected terrain. This option does not work with "draw lock" on.
F5	G	Changes the selected terrain to grass.
F6	W	Changes the selected terrain to water.
F7	R	Changes the selected terrain to rough.
F8	U	Undoes last command. You can Undo an Undo to restore the last command.
F9	P	Lets you preview the hole. This option toggles on and off.
F10	D	Toggles "draw lock" on/off. Draw lock lets you drop a continuous series of tiles to outline terrain features.

Ctrl- ←	Scroll terrain left.
Ctrl- →	Scroll terrain right.
Ctrl-PgUp	Scroll terrain up.
Ctrl-PgDn	Scroll terrain down.

In addition to drawing shortcuts, there are also several shortcuts while in "Finish Hole" mode.

Function	Key	Key	Function
F1		T	Distance from arrow to tee.
F2		G	Distance from arrow to green.
F3		D	Draws an arc representing the Driver's maximum range from the tee.
F4		Y	Draws an arc 150 yards from the green to help place yardage markers.
F5		F	Flips object.
F6		L	Places a duplicate of the last object selected on the hole.
F7 & F8		7 and 8	Rotates through the different types of objects.
F9 & F10		9 and 0	Rotates through objects of the current type
N/A		Del	Deletes an object.

Note: These commands function only while working on the left (hole) half of the screen, with the exception of Undo (U) and Flip (F). Also note that the Break command is disabled in *World Tour Golf*, and Ctrl-C functions the same as the Esc key.

When designing fairway with doglegs (bends), place a par marker at the center of the dogleg to get a more accurate yardage reading (par value). Place a par marker by selecting Object #11 from the Other category under Place Objects. If you change disks to load or save a new course on a single drive system, you may be asked to load an overlay. To prevent this, make a floppy backup and delete one of the two graphics data files to create room on the disk. Tandy 1000s with a minimum of 384K use **BM16.DAT**. All other modes use **BM4.DAT**. Save the courses you create on this backup game disk.

Saving Player Characteristics and Quitting the Game

Player characteristics can be saved between games only if you run *World Tour Golf* on a hard disk, or floppy disk copy with no write-protect tab. Return to original characteristics by deleting the file **PLAYERS.DAT** (see your DOS user's manual for information on deleting files). The file will be recreated the next time you start the program.

To end the game, repeatedly press Esc until you reach the title screen. Once at the title screen, press Q to quit the program and return to DOS.

Golf Courses

All the golf courses included on the disk are listed below. The left column shows the file names as they appear on the disk, and the right column shows the course names and their locations if applicable.

FILE NAME	COURSE NAME	LOCATION
AUGUSTA	Augusta	Augusta, Georgia
CHAMPION	Champions Golf Club	Houston, Texas
CYPRESSP	Cypress Point	Pebble Beach, California
EXECUTIV	Executive	Fictional
FANTASY	Fantasy	Fictional
HIRONO	Hirono	Kobe, Japan
INCLINE	Incline Village	Lake Tahoe, Nevada
KIAHUNA	Kiahuna	Hawaii, Hawaii
MONTREAL	Royal Montreal	Montreal, Canada
NASTY_9	Nasty 9	Fictional
NATIONAL	National Course of America	New York, New York
OAKMONT	Oakmont	Oakmont, Pennsylvania
OLYMPIC	The Olympic	San Francisco, California
PEBBLE_B	Pebble Beach	Pebble Beach, California
PRINCEVI	Princeville	Kauai, Hawaii
SEMINOLE	Seminole	Palm Beach, Florida
SHINNECO	Shinnecock Hills	Shinnecock, New York
ST_ANDRE	St. Andrews	Fife, Scotland
ST_GEORG	Royal St. George's	Sandwich, Kent, England
WINGED_F	Winged Foot	Mamaroneck, New York

TERMS AND CONDITIONS OF SALE AND LICENSE OF TANDY COMPUTER SOFTWARE PURCHASED AND LICENSED FROM RADIO SHACK COMPANY-OWNED COMPUTER CENTERS, RETAIL STORES AND RADIO SHACK FRANCHISEES OR DEALERS AT THEIR AUTHORIZED LOCATIONS

LIMITED WARRANTY

TANDY Software is licensed on an "AS IS" basis, without warranty. The original CUSTOMER'S exclusive remedy, in the event of a Software manufacturing defect, is its repair or replacement within thirty (30) calendar days of the date of the Radio Shack sales document received upon license of the Software. The defective Software shall be returned to a Radio Shack Computer Center, a Radio Shack retail store, a participating Radio Shack franchisee or a participating Radio Shack dealer along with the sales document.

EXCEPT AS PROVIDED HEREIN, RADIO SHACK MAKES NO EXPRESS WARRANTIES, AND ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE IS LIMITED IN ITS DURATION TO THE DURATION OF THE WRITTEN LIMITED WARRANTIES SET FORTH HEREIN.

Some states do not allow limitations on how long an implied warranty lasts, so the above limitation(s) may not apply to CUSTOMER.

RADIO SHACK SHALL HAVE NO LIABILITY OR RESPONSIBILITY TO CUSTOMER OR ANY OTHER PERSON OR ENTITY WITH RESPECT TO ANY LIABILITY, LOSS OR DAMAGE CAUSED OR ALLEGED TO BE CAUSED DIRECTLY OR INDIRECTLY BY "SOFTWARE" LICENSED OR FURNISHED BY RADIO SHACK, INCLUDING, BUT NOT LIMITED TO, ANY INTERRUPTION OF SERVICE, LOSS OF BUSINESS OR ANTICIPATORY PROFITS OR INDIRECT, SPECIAL, OR CONSEQUENTIAL DAMAGES.

Some states do not allow the limitation or exclusion of incidental or consequential damages, so the above limitation(s) or exclusion(s) may not apply to CUSTOMER.

SOFTWARE LICENSE

RADIO SHACK grants to CUSTOMER a non-exclusive, paid-up license to use the Tandy Software on **one** computer, subject to the following provisions:

- A. Except as otherwise provided in this Software License, applicable copyright laws shall apply to the Software.
- B. Title to the medium on which the Software is recorded is transferred to CUSTOMER, but not title to the Software.
- C. CUSTOMER shall not use, make, manufacture, or reproduce copies of Software except for use on **one** computer and as is specifically provided in this Software License. Customer is expressly prohibited from disassembling the Software.
- D. CUSTOMER is permitted to make additional copies of the Software **only** for backup or archival purposes or if additional copies are required in the operation of **one** computer with the Software, but only to the extent the Software allows a backup copy to be made.
- E. All copyright notices shall be retained on all copies of the Software.

The warranties granted herein give the **original** CUSTOMER specific legal rights, and the **original** CUSTOMER may have other rights which vary from state to state.
