Course Left/right selects the desired course from **1** through **10** (you can only select up to the highest course you have completed).

Time Limit Left/right sets the desired time limit. Any time left over at the end of the course is added to the time limit for the next course.

Truck Setting Left/right selects your skateboard truck setting. How tight the trucks are set determines how fast, or slow, the skateboard turns.

Press the **space bar** to start the game.
